

# CV Carina Edman

2023 09 10

I prefer to paint abstractly, in acrylic, vinyl and with collage in paper, fabric, floor cardboard recycled materials and with lots of different pencils, crayons, scrapers and a sander as tools. A fascination with creation and all the fantastic things on our earth means that I often use nature as a model, but then reproduce my thoughts in abstract images. What inspires me figuratively and in terms of color is sky, sea, meadows, rocks and earth.

## **Artistic educations:**
