Shape, light and
absolutely color!

Hi, my name is
Arco. When I was 4
years old my
mother suggested
to make a drawing
for my grandpa

with the hope I will finally go drawing. It was the right suggestion because from that moment I was always busy with drawing and painting.

On my sixt birthday i got my very first easel from my uncle who is also an painter himself. I always paint with a lot of colour and inspired bij nature and people.

During my twenties I lost my creativity out of sight. It was during the recovery from my depression that I found my passion for painting back. And now I will never let it go!

With a firm brushstroke, I bring movement to my colorful compositions. My work is more than just a collectoin of artworks; it's proof of the healing power

of creativity and the endless possibilities that arise when you dare to dream in color. My work takes you on a journey to my heart full of creativity where every paint stroke tells a story and every color sings.
