TETIANA YAVORSKA

CONTEMPORARY ABSTRACT ARTIST

Born in Ukraine and based in Florida, Tetiana Yavorska is a contemporary abstract artist whose work explores the relationship between structure and freedom, order and life.

With a background in pharmacy, theology, and psychology, she brings a philosophical perspective to her art, exploring human emotions, transformation, and the complexity of existence.

Through geometric forms, expressive brushstrokes, and vibrant colors, Yavorska creates a visual dialogue between established structures and the unpredictable movement of life.

Her work reflects both personal and universal experiences of change, reminding us that even as structures evolve, life continues to find its own path toward harmony and beauty.

"Rules exist, but life always finds its own way."

— TETIANA YAVORSKA
